

# Spatial History Map 3: Migration after 1945

Due: Monday, November 16 at 11:59 PM

Value: 40 points

Format: Annotated historical map

## Purpose

Map how decolonization, labor demand, conflict, or state policy shaped one migration system after 1945.

## Your task

- Choose one system: Caribbean migration to Britain, Algerian migration to France, Turkish guest workers to West Germany, Partition displacement, or rural-to-urban migration in postwar China.
- Map origins, destinations, major routes, at least one policy boundary, and two institutions that enabled or constrained movement.
- Use at least five dated annotations, including one migrant voice and one state record.
- Represent return, circular, or interrupted movement where supported rather than using only one-way arrows.
- Write a 250-word caption explaining how the map changes a simple push-pull account.

## Submit

- Landscape PDF map with caption and source credits.

## Grading criteria

| Criterion            | Pts | Full-credit evidence                                                           |
|----------------------|-----|--------------------------------------------------------------------------------|
| Historical evidence  | 10  | Uses accurate dates, locations, movements, and source-based annotations.       |
| Spatial reasoning    | 10  | Map design reveals a process or relationship rather than only labeling places. |
| Interpretive caption | 10  | Makes a defensible claim and explains what the spatial pattern shows.          |
| Visual communication | 6   | Legend, symbols, scale, hierarchy, and labels are clear and accessible.        |
| Source credits       | 4   | Provides complete citations and rights or provenance information.              |

## Submission standards

Upload a readable PDF unless the handout specifies another format. Include your name, course code, and assignment title. Cite borrowed ideas and retain the editable source file. The learning portal timestamp is the official submission time.
