

Applied Cognition Note 5: Language Framing

Due: Tuesday, November 3 at 11:59 PM

Value: 15 points

Format: 500-700 word analysis

Purpose

Test whether two semantically equivalent descriptions encourage different interpretations or choices.

Your task

- Select a low-stakes message such as a campus sustainability notice, health reminder, or product comparison.
- Write a gain-framed and loss-framed version that preserve the same quantities and factual content.
- Ask at least six consenting adults to rate only one version for urgency and intended action; collect no names or demographics.
- Summarize the pattern, explain a plausible framing mechanism, and identify why this convenience sample cannot establish a population effect.

Submit

- One PDF with both messages, anonymous response table, and analysis.

Important note

This is an informal classroom demonstration. Do not use medical diagnoses, financial products, political persuasion, or distressing scenarios.

Grading criteria

Criterion	Pts	Full-credit evidence
Accurate concept	4	Uses the assigned cognitive concept accurately and precisely.
Concrete evidence	4	Documents specific observations or examples rather than general impressions.
Analysis	5	Connects evidence to a defensible explanation and acknowledges a limitation.
Clarity and attribution	2	Meets length, organization, and citation expectations.

Submission standards

Upload a readable PDF unless the handout specifies another format. Include your name, course code, and assignment title. Cite borrowed ideas and retain the editable source file. The learning portal timestamp is the official submission time.
