

Final Replication Proposal

Due: Thursday, December 10 at 11:59 PM Value: 150 points Format: 6-8 page APA-style proposal

Purpose

Present a coherent, ethical, evidence-based plan for replicating and extending a cognitive psychology finding. The proposal should be specific enough that another student researcher could implement it.

Your task

- Revise the question and rationale using feedback from all three milestones and peer review.
- Synthesize at least eight peer-reviewed sources into an argument rather than a sequence of summaries.
- Describe participants, design, materials, procedure, variables, controls, and planned comparison in reproducible detail.
- State the predicted pattern, explain what different outcomes would mean, and discuss at least three limitations.
- Include an ethics paragraph, participant-facing instructions, one sample stimulus, and a milestone-response memo.

Submit

- 6-8 page proposal PDF, excluding references and appendices.
- APA reference list and required appendices.
- One-page response memo mapping substantive revisions to prior feedback.

Important note

This is a proposal only. Students may not recruit participants or collect data for this assignment.

Grading criteria

Criterion	Pts	Full-credit evidence
Question and significance	20	A focused question follows logically from a meaningful theoretical issue.
Evidence synthesis	30	Uses at least eight sources critically and accurately.
Method	40	Design is ethical, feasible, controlled, and reproducible.
Predictions and inference	25	Connects possible outcomes to theory without overclaiming.
Limitations and revision	20	Addresses validity threats and responds substantively to feedback.
Scientific writing and APA	15	Clear organization, precise language, complete citations, and usable appendices.

Submission standards

Upload a readable PDF unless the handout specifies another format. Include your name, course code, and assignment title. Cite borrowed ideas and retain the editable source file. The learning portal timestamp is the official submission time.
